

Declaration of decontamination / Clearance certificate

Dear XION Customer,

Please complete this decontamination declaration in full and enclose it with your shipment so that the certificate can be read without unpacking the goods (e.g. by means of an envelope on the outside of the shipping box).

A fully completed declaration of decontamination is a prerequisite for the acceptance and further processing of your repair/return goods. If this declaration is missing, we will carry out a chargeable decontamination at your expense before further processing.

In the event of heavy soiling, we reserve the right to return the goods unprocessed and subject to a charge.

Thank you for your understanding!

Your XION Team
